Turnaround & Deliverables

TAT: 10–14 working days from receipt of samples at MSS Lab (Aqaba). Deliverables: Signed PDF report, method notes, and interpretation.

Sample Handling (client-delivered, lab-ready bottles)

- Maintain at ~4 °C during transport; protect chlorophyll samples from light.
- Use sterile bottles for *E. coli*.
- Chain-of-Custody form to accompany samples (template available upon request).

Commercial Terms

Validity: 30 days.

Payment schedule: 100% upon submission of the final report.

Exclusions: Field sampling, vessel time, and mobilization (can be quoted separately under MSS facilities regulations).

If the above aligns with your expectations, kindly confirm and advise your preferred sample delivery date. We will then issue the formal signed quotation on letterhead immediately.

With appreciation,

Dr. Mohammad Wabsha

Director, Marine Science Station (MSS)

The University of Jordan – Aqaba Branch
